ISSUE 13

VOLUME 1

April 22, 2014

Smithton Community Consolidated School District No. 130

# a STITCH in time

STITCH stands for *Smithton Technology Integration Tips = Computer Help!* This publication is produced by the Smithton Community Consolidated School District Technology Committee. The committee welcomes contributions to facilitate a shared learning community of educators.

## Spotlighted Site

[www.figurethis.org/index.html](http://www.figurethis.org/index.html)

Figure This is a website created by the National Council of Teachers of Mathematics. The site presents a series of math problems designed to spark discussion and collaboration between parents and their children. The problems are based around objects and situations with which most students will be familiar. For example, there are questions about how movies make money, how far a paper airplane can fly, and when to buy block ice instead of crushed ice. It is a good resource for math problems that you can send home with your students to discuss with their parents.

Use the QR Code below to go to the Figure This website.

## APP WATCH

Knowmia Teach - A free lesson planning and recording tool for teachers. It helps you create video lessons on any subject and publish them on knowmia.com. It's a very useful tool for teachers who want to start 'flipping the classroom'.
